

## Site 39 Inland Ranges Habitat Restoration Status Update

December 11, 2025

---

### Caretaker Activities

- Completed caretaking activities for the season that included:
  - Removal of ~1,000+ invasive tree species (e.g., Monterey pine, cypress, and acacia)
  - Spreading of 28 cubic yards of native mulch at HA 37
  - Collection of some native seed to supplement seed mixes

### Erosion Control Activities

- Broadcast native seed mixes over 2.8 acres of area at HAs 19, 26, 28, 34, and 37
- Installed 12 straw wattles at HA 37
- Repaired ~200 linear feet of rill erosion at HAs 37 and 26
