Table 1
Potential Applicable or Relevant and Appropriate Requirements (ARARs)

Source or Authority	Requirement, Standard, or Criterion	Туре	Description	Remarks	
Federal ARARs					
Endangered Species Act (ESA) (16 United States Code [U.S.C.] §§ 1531-1543)	16 U.S.C. § 1536 (a) and (c); 16 U.S.C. § 1538 (a)(1)	Applicable <sup>1, 2, 3</sup> / Location	Federal agencies are required under Section 7 of the ESA to ensure that their actions do not jeopardize the continued existence of a listed species or result in destruction of or adverse modification of its critical habitat (16 U.S.C. § 1536). If the proposed action may affect the listed species or its critical habitat, consultation with the United States Fish and Wildlife Service (USFWS) and/or California Department of Fish and Game may be required (50 Code of Federal Regulations [CFR] § 402.14). Additionally, Section 9 of the ESA prohibits the illegal taking of a listed species (16 U.S.C. § 1538(a)(1)).	Endangered plant and animal species and critical habitats occur at the former Fort Ord. Each reuse area will be screened for potential impacts to any endangered species identified in the Installation-Wide Multispecies Habitat Management Plan (HMP; USACE 1997) and additional requirements identified in subsequent documents (USFWS 1999, 2002, and 2005; and Zander 2002). The provisions of the HMP and referenced additional requirements satisfy the requirements of the ESA.	
Migratory Bird Treaty Act (MBTA)	16 U.S.C. §§ 703- 712	Applicable <sup>1, 2, 3</sup> / Location	The statute sections prohibit the taking, possession of, buying, selling, purchasing, or bartering of any migratory bird, including feathers or other parts, nest eggs, or products, except as allowed by regulations.	The requirement includes specific standards of control.	
Hazardous Materials & Transportation Act	49 CFR Part 172.101	Applicable <sup>3</sup> / Chemical and Action	These regulations impose procedures and controls on the transportation of hazardous materials.	The regulations include specific standards of control and substantive requirements, criteria, and limitations that may apply to the transport of detonation materials and selected recyclable ordnance materials.	
National Pollutant Discharge Elimination System (NPDES)	40 CFR Parts 122, 123, 124	Relevant and Appropriate <sup>1, 2,</sup> / Action	Regulates the discharge of pollutants to waters of the United States.	The regulations include specific standards of control and substantive requirements, criteria, and limitations that may apply to discharges of pollutants to waters of the United States. Under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), procedural requirements such as obtaining a permit while conducting MEC investigation/remediation do not apply.	
Federal Resource Conservation and Recovery Act (RCRA), Subpart M (Military Munitions Rule ["the Military Munitions Rule"])	40 CFR Parts 266 and 270	Relevant and Appropriate <sup>2, 3</sup> / Chemical and Action	The regulations identify when military munitions on active ranges become subject to the regulatory definition of "solid waste," for purposes of RCRA Subtitle C and, if these wastes are hazardous, the management standards that apply.	Portions of the Military Munitions Rule may be relevant and appropriate, but those provisions of the Rule that exclude military munitions from RCRA Subtitle C regulations are not appropriate to the remediation of a closed range. The relevant portions relate to the management of munitions and explosives of concern (MEC), which is recovered, including characterization as hazardous waste and requirements for treatment, storage, and transportation. The Rule provides for the storage and transportation of recovered military munitions in accordance with Department of Defense Explosives Safety Board (DDESB) standards.	
State of California ARARs					
California Endangered Species Act	Fish and Game Code §§ 2051 et seq. and §2080	Relevant and Appropriate 1, 2, 3 / Location	The statute sections provide a declaration of policy and definitions. Section 2080 provides that no person shall take, possess, purchase, or sell within this state, any species, or any part or product thereof, that the commission determines to be an endangered species or a threatened species, or attempt any of those acts.	Section 2080 includes specific standards of control with respect to the taking of endangered or threatened species.	

Page 1 of 4

Table 1
Potential Applicable or Relevant and Appropriate Requirements (ARARs)

Source or Authority	Requirement, Standard, or Criterion	Туре	Description	Remarks	
California Fish and Game Code	§ 3511	Relevant and Appropriate <sup>1, 2, 3</sup> / Location	This statute section prohibits taking or possessing fully protected birds or parts thereof, listed as: (a) American peregrine falcon (Falco peregrinus analum); (b) Brown pelican; (c) California black rail (Lateralhus jamaicensis coturniculus); (d) California clapper rail (Rallus longirostris obsoletus); (e) California condor (Gymnogyps californianus); (f) California least tern (Sterna albifrons browni); (g) Golden eagle; (h) Greater sandhill crane (Grus canadensis tabida); (i) Lightfooted clapper rail (Rallus longirostris levipes); (j) Southern bald eagle (Haliaeetus leucocephalus leucocephalus); (k) Trumpeter swan (Cygnus buccinator); (l) White-tailed kite (Elanus leucurus); and (m) Yuma clapper rail (Rallus longirostris yumanensis).	The requirement includes specific standards of control that may apply to the American peregrine falcon (some possibility), golden eagle (slight possibility), brown pelican (not likely but possible), and California least tern (not likely but possible).	
California Fish and Game Code	§ 3513	Relevant and Appropriate <sup>1, 2, 3</sup> / Location	This statute section declares that it is unlawful to take or possess any migratory non-game bird as designated in the MBTA or any part of such migratory non-game bird except as provided by rules and regulations adopted by the Secretary of the Interior under provisions of the MBTA.	The requirement includes specific standards of control.	
California Fish and Game Code	§ 3503.5	Relevant and Appropriate <sup>1, 2, 3</sup> / Location	This statute section prohibits the take, possession, or destruction of any birds in the orders of Falconiformes or Strigiformes, or to take, possess, or destroy the nest or eggs of any such bird, except as provided in the code.	The requirement includes specific standards of control that may apply to vultures, hawks, ospreys, falcons, and owls.	
California Fish and Game Code	Title 14, California Code of Regulations (CCR) § 472	Relevant and Appropriate <sup>1, 2, 3</sup> / Location	This regulation limits the taking of non-game birds and mammals except for specified species.	The requirement includes specific standards of control that may affect American crows.	
California Fish and Game Code	§ 4800 et seq.	Relevant and Appropriate 1, 2, 3 / Location	This statute section declares that it is unlawful to take, injure, possess, transport, or sell any mountain lion.	The requirement includes specific standards of control.	
California Fish and Game Code	Title 14, CCR §§ 40- 42	Relevant and Appropriate <sup>1, 2, 3</sup> / Location	These regulations make it unlawful to take, possess, purchase, propagate, sell, transport, import, or export any native reptile or amphibian, unless under special permit.	The requirement includes specific standards of control that may apply to California black legless lizard and coast horned lizard.	
California Health and Safety Code, Division 20	Title 22, CCR Division 4.5	Applicable <sup>3</sup> / Chemical and Action	The statute and regulations provide for identification of hazardous waste in §§ 66261. If a material is a hazardous waste, Division 4.5 provisions further regulate hazardous waste generators, transporters, and treatment, storage, and disposal facilities.	The Environmental Services Cooperative Agreement Remediation Program (ESCA RP) Team will evaluate discovered items in accordance with the approved work plan to determine the presence of energetic materials or other constituents that would cause it to be characterized as a hazardous waste.  Substantive requirements:  Storage: on-site storage of MEC items occur in a designated bunker that meets the	
				<ul> <li>standard of DDESB 6055.9 STD, including security measures such as fences, signs, and an alarm system.</li> <li>Transportation: off-site transportation of small arms ammunition will incorporate applicable manifesting and placarding requirements. Conforms to Defense Reutilization and Marketing Office instruction.</li> <li>Disposal/recycling: off-site disposal or recycling facility or facilities for small arms ammunition will be state and/or RCRA-authorized.</li> </ul>

Table 1
Potential Applicable or Relevant and Appropriate Requirements (ARARs)

Source or Authority	Requirement, Standard, or Criterion	Туре	Description	Remarks	
California Health and Safety Code	Title 22, CCR § 66264.601-603	Relevant and Appropriate <sup>2</sup> / Action	These regulations apply to hazardous waste treatment, which is conducted in a device that does not meet the definition of a "container" in 22 CCR § 66260.10 or is characterized as a "Miscellaneous Unit" subject to the provisions of 22 CCR § 66264.601-603. For activities where detonations are in a device that meets the 22 CCR § 66260.10 definition of a container, the requirements for "temporary units," as set forth in 22 CCR § 66264.553, apply.	The regulations include generally described narrative standards. Compliance with substantive requirements is achieved through regulatory coordination of site-specific work plans in accordance with the CERCLA and Federal Facility Agreement.	
California Health and Safety Code	Title 22, CCR § 66265.382	Relevant and Appropriate <sup>3</sup> / Chemical and Action	Open burning of hazardous waste is prohibited except for the open burning and open detonation (OB/OD) of waste explosives. Waste explosives include waste that has the potential to detonate and bulk military propellants that cannot safely be disposed of through other modes of treatment. Detonation is an explosion in which chemical transformation passes through the material faster than the speed of sound (0.33 kilometer/second at sea level). Owners or operators choosing to open burn or detonate waste explosives shall do so in accordance with the following table and in a manner that does not threaten human health or the environment.    Pounds Waste Explosives	The requirement includes specific standards of control and addresses situations similar to those that may be addressed during MEC remediation; detonation of MEC will comply with these requirements.	
California Fish and Game Code	§ 1900 et seq.	Relevant and Appropriate <sup>1, 2, 3</sup> / Action	These statute sections sets forth programmatic and administrative provisions and, in § 1908, provides that no person shall import into the state, or take, possess, or sell within this state, except as incident to the possession or sale of the real property on which the plant is growing, any native plant, or any part or product thereof, that the commission determines to be an endangered native plant or rare native plant.	The standards of control are relevant and appropriate, and the citation is therefore considered as an ARAR.	
California Fish and Game Code	Title 14, CCR § 783 et seq.	Relevant and Appropriate <sup>1, 2, 3</sup> / Action	These regulations provide that no person shall import into the State, export out of the State or take, possess, purchase, or sell within the State, any endangered species, threatened species, or part or product thereof, or attempt any of those acts, except as otherwise provided in the California Endangered Species Act, Fish and Game Code Section 2050, et seq., the Native Plant Protection Act, the Natural Community Conservation Planning Act, the California Desert Native Plants Act, or as authorized under this article in an incidental take permit. The regulations also provide programmatic and administrative procedures for incidental take permits.	The section includes specific standards of control with respect to taking rare or endangered plants. The standards of control are relevant and appropriate, and the citation is therefore considered as an ARAR.	
Porter Cologne Water Quality Control Act	California Water Code, Division 7, Section 13200	Relevant and Appropriate <sup>1, 2</sup> / Action	Requires submission of Report of Waste Discharge and obtaining waste discharge requirements for specified waste discharges.	Investigation and MEC remediation activities may require submitting Report of Waste Discharge and obtaining waste discharge requirements; this may be addressed as part of NPDES permit requirements. Under CERCLA, procedural requirements such as obtaining a permit while conducting MEC investigation/remediation do not apply.

Table 1
Potential Applicable or Relevant and Appropriate Requirements (ARARs)

Source or Authority	Requirement, Standard, or Criterion	Туре	Description	Remarks	
State of California To-Be	State of California To-Be-Considered Criteria (TBCs)				
California Fish and Game Commission	Wetlands Resources (pursuant to § 703 of California Fish and Game Code; not a statute)	Policy <sup>1,2,3</sup> / Location	This policy: (1) seeks to provide for the protection, preservation, restoration, enhancement, and expansion of wetland habitat in California; (2) strongly discourages development in or conversion of wetlands; and (3) opposes, consistent with its legal authority, any development or conversion that would result in a reduction of wetland acreage or wetland habitat values. To that end, the Commission: (1) opposes wetland development proposals unless, at a minimum, project mitigation assures there will be "no net loss" of either wetland habitat values or acreage; and (2) strongly prefers mitigation that would achieve expansion of wetland acreage and enhancement of wetland habitat values.	The policy provides for the protection of wetland resources.	
Regulations that were co	onsidered as Potential ARA	ARs but were not co	<u> </u>		
California Fish and Game Code	§ 3005		The statute section prohibits the taking of birds or mammals, except non-game mammals, with any net, pound, cage, trap, set line, or wire, or poisonous substance. Included in the term "taking" is the killing of birds or mammals by poison.		
California Fish and Game Code	§ 4000 et seq.		This statute section provides that a fur-bearing mammal may be taken only with a trap, firearm, bow and arrow, poison under a proper permit, or with the use of dogs.		
California Fish and Game Code	Title 14, CCR § 460		This regulation makes it unlawful to take Fisher, marten, river otter, desert kit fox and red fox.	The species of red fox protected by the State is located in the Sierra Nevada mountain range. The species of red fox located at the former Fort Ord is an introduced species and is not protected by this section.	
California Clean Air Act	Health and Safety Code § 41701		This statute section prohibits the discharge into the atmosphere from any source whatsoever any air contaminant for a period or periods aggregated more than three minutes in any one hour that is dark or darker than No. 2 on the Ringelmann Chart or obscures the view to a degree equal to or greater than smoke.	Agricultural burning for which a permit has been granted pursuant to Article 3 (commencing with § 41850, emission limitations for agricultural burning) are exempt from this requirement per § 41704(b). Any prescribed bums that would be conducted for vegetation removal prior to MEC remediation will be conducted under Monterey Bay Unified Air Pollution Control District Rule 407, which implements the requirements of Article 3 (California Health and Safety Code § 41850 et seq.).	

## **Notes:**

- 1. Vegetation Clearance
- 2. MEC Remediation
- 3. Detonation of MEC
