Dear Mr. Ridenour:

Enclosed for your information is a revised schedule for submitting primary documents under the Fort Ord Federal Facility Agreement (FFA) pertaining to the Early Transfer Property subject to Environmental Services Cooperative Agreement (ESCA) at the former Fort Ord. Under the ESCA and as described in FFA Amendment No. 1, Fort Ord Reuse Authority (FORA) has assumed responsibility for completion of necessary response actions on the Early Transfer Property, except Army Obligations. Under the FFA and FFA Amendment No. 1, proposed plans and records of decision for the Early Transfer Property are Army primary documents.

The schedule for submitting the final Explanation of Significant Differences to the Track 2 Record of Decision for the Parker Flats Munitions Response Area (MRA) concerning a portion of the ESCA Parker Flats MRA Phase I, is delayed by one month. Additional time is needed for review of the final version. As described in a FORA letter dated February 27, 2018, the revised schedule was discussed with and approved by U.S. Environmental Protection Agency (EPA) and California Department of Toxic Substances Control (DTSC) during a telephone conference on February 22, 2018.

A copy of this letter will be furnished to Mr. Vlado Arsov of your office, Ms. Judy Huang of EPA, and Mr. Stan Cook of FORA. Please feel free to contact me at (831) 242-7920 if you have any questions.

Sincerely,

A handwritten signature in black ink that reads "William K. Collins".
