HISTORY

As an active U.S. Army post, Fort Ord's mission was to train soldiers to protect the interests of the United States. An important part of the mission was infantry and artillery training. As a result of this training, unexploded ordnance remains on portions of the now-closed Fort Ord.

After reviewing the records of past training activities, the Army identified areas where ordnance may still remain and began conducting investigations and removing ordnance from those areas. Cleanup of all identified areas will not be completed for many years.
