

Fort Ord Military Munitions Recognition and Safety Training

As a result of the Army's use of military munitions on the former Fort Ord, unexploded ordnance (UXO) may be encountered by those working on and reusing former Fort Ord property.

This training is recommended for anyone excavating on Fort Ord and required for all workers entering restricted munitions response sites.

The U.S Army Corps of Engineers (USACE) offers training to all contractors, property owners and workers involved in intrusive (digging) activities on the former Fort Ord. The training will orient attendees on UXO avoidance, the visual characteristics of UXO and the precautions necessary if it is encountered. Attendees will also be provided the procedures for contacting authorities if UXO is encountered.

- It is free
- It takes about 20 minutes at the USACE facility
- USACE will make special arrangements (come to your job site) for groups of 15 or more.

To schedule training contact:

Lyle Shurtleff, Fort Ord BRAC MRS Security Manager at (831) 242-7919 or email at: victor.l.shurtleff@us.army.mil
