- 100ft Grid
- 1000ft Grid
- MRS Ranges 43-48

MEC/MD-E, MD symbol represents location of one or more items

1,000-ft by 1,000-ft grids displayed with Master Grid System ID used during surface TCRA.

100-ft by 100-ft grids displayed with Master Grid ID (top) and respective grid IDs used during previous sampling and removal activities (bottom).

Because MEC, MD-E, and munitions debris removed during the sifting process were unavoidably commingled and therefore cannot be associated with a specific location, they do not appear on this map.
