

# 2018 Track 3 Surface Area Monitoring Report

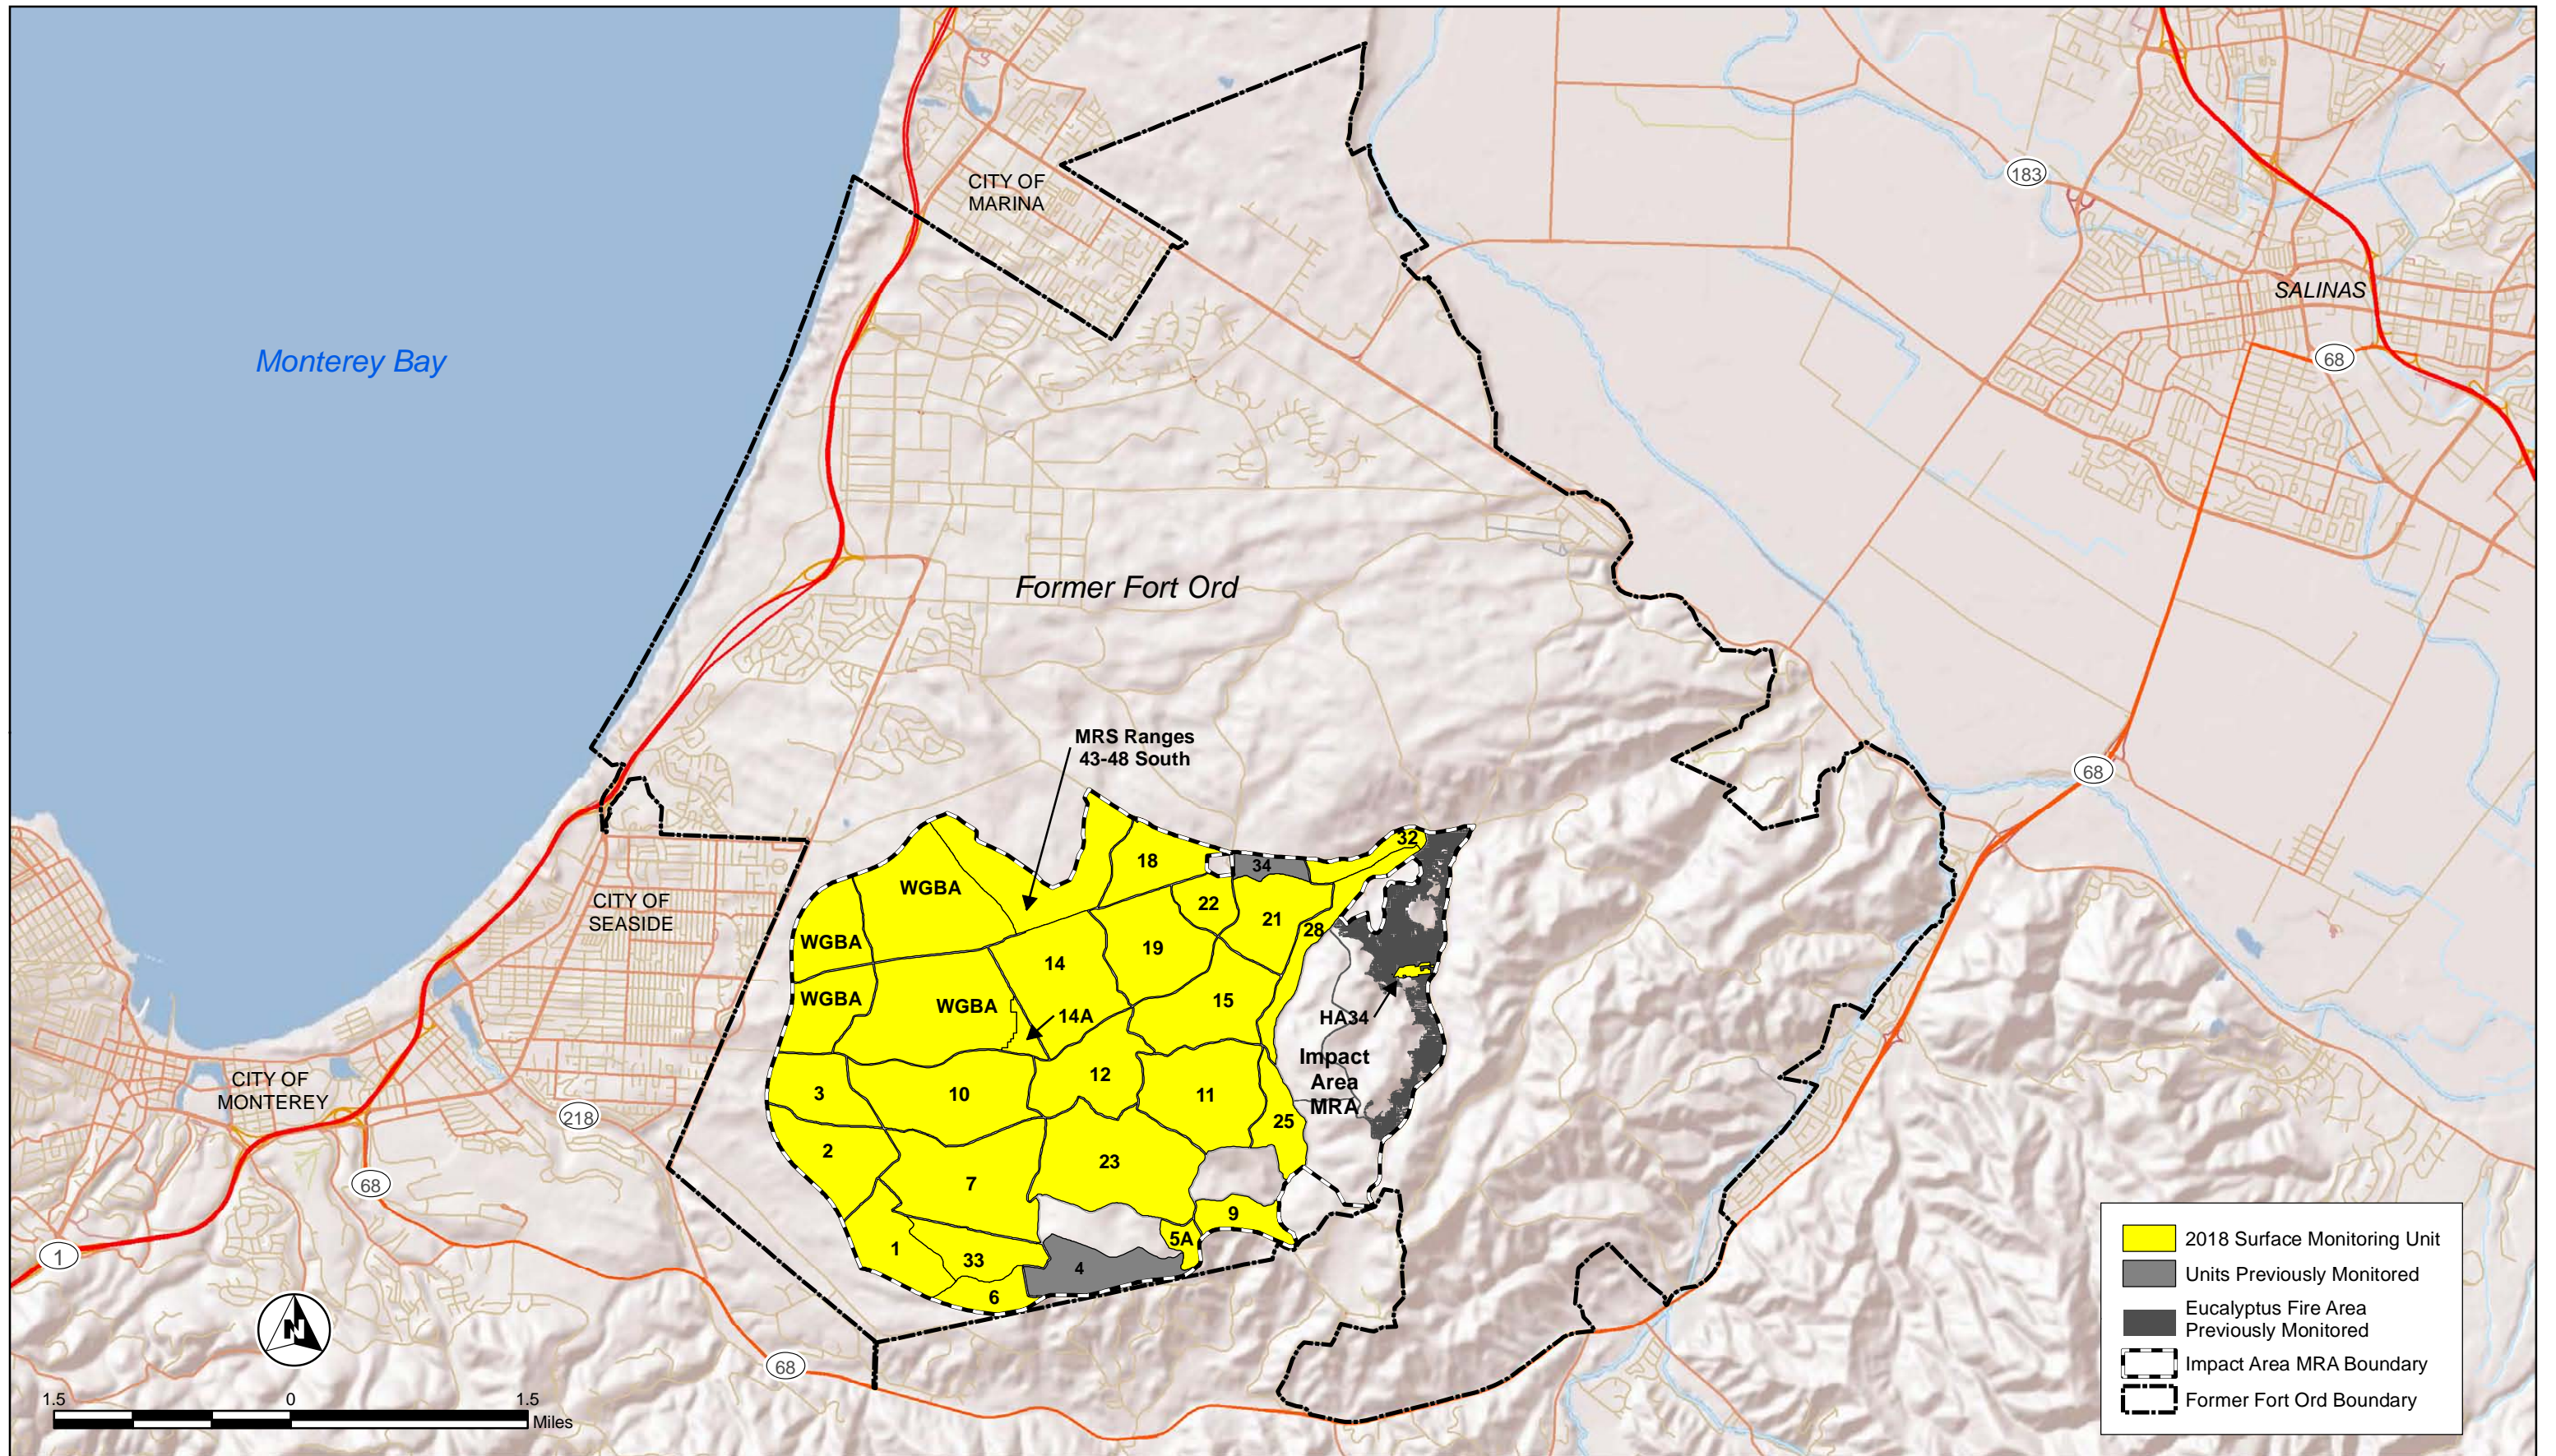

- Issued January 2019 (OE-0847I)

## Objectives

- Comply with Track 3 ROD
  - Address potential changes in site conditions due to erosion
  - Monitor units/areas until vegetation growth is sufficient to minimize erosion

## Procedures

- Monitor one percent, at minimum of all units/areas in the program
- Enhanced surface monitoring in all units/areas with high subsurface anomaly density and UXO with sensitive fuzes
