

MR BCT Wednesday, February 19, 2020 10:00 a.m.
Summary of Contract Status for Munitions Response

KEMRON has been performing Munitions response under the current Task Order since 2014.

The Task Order period of performance is concluding on 31 March 2020

Due to constrained funding a new 5-year multimillion dollar contract to continue prescribed burns and MEC cleanup will not be awarded in FY20 or FY21.

The Army is planning to solicit a new large contract in 2022 for award of a 5-year contract for MEC cleanup. Details and contract vehicle types are currently source selection sensitive.

In the interim, a short term contract will be solicited for completion of

- Annual Surface Monitoring

- UXO Support (Escorts/Construction Support/MEC find identification and disposition)

- Maintenance of the license for the Munitions Storage Locker and storage for BRAC and PoM as needed

- Other potential MEC-related issues of a small scale that may require a response

Several optional tasks are being considered, including

- Encampment Cleanups

- Guarding of certain munitions items after finds by on-site staff and contractors, public or construction workers

- Demolition-in-place operations as needed

- Other actions requiring rapid response for which a pre-funded exercise of option can be performed verbally

The "Sources Sought" announcement issued 13JAN2020 (attached) resulted in more than one respondent indicating interest (exact quantity and respondent names are source selection sensitive). This short term or "Interim MEC" Contract is expected to be awarded in late April early May of 2020.

The U.S. Army Corps of Engineers is planning to provide as robust a level of support for BRAC as possible with a focus on maintaining public safety and responsiveness in the event that more funding becomes available for MEC remedial action on short notice.

Description

Title: Sources Sought for Munitions and Explosives of Concern (MEC) Support and Removal at Former Fort Ord, Monterey County, California.

This is a SOURCES SOUGHT SYNOPSIS for MARKET RESEARCH only.

This announcement seeks information from industry, which will be used for preliminary planning purposes. No proposals are being requested or accepted

with this synopsis. THIS IS NOT A SOLICITATION FOR PROPOSALS AND NO CONTRACT SHALL BE AWARDED FROM THIS SYNOPSIS. NO SOLICITATION, SPECIFICATIONS, OR DRAWINGS ARE AVAILABLE AT THIS TIME, OTHER THAN WHAT IS POSTED WITH THIS NOTICE.

Responses are being sought from qualified SMALL and OTHER THAN SMALL business concerns possessing the technical/management expertise to execute the work requirements.

USACE is looking for contractors with the following capabilities preferably within the commuting area of Monterey County, California:

- (1) 2 UXO Techs Level II, III or higher to support
 - (a) Former Fort Ord Habitat Restoration and Biomonitoring activities when they are in need of escorts on the units requiring escort
 - (b) Bureau of Land Management when they are doing various activities (weed control, fuel break maintenance, etc.) on escort-required units
 - (c) other organizations needing access to the escort-required units
- (2) UXO Techs and Technical writer for the completion of the CERCLA-required annual surface monitoring
- (3) License maintenance in order to continue use of the munitions storage locker (MSL).
- (4) Support of the Presidio of Monterey Salute to the Nation (Independence Day Celebration) by providing storage facility for approximately 20 cannon rounds.
- (5) Optional munitions security guarding for the eventuality of needing to guard a found munition until it can be either disposed, or moved to the MSL.
- (6) Contract and Scope capacity for homeless encampment cleanups.

The resulting contract from the upcoming solicitation is expected to be for a two-year period. The resulting contract type is expected to be a Firm-Fixed Price.

The purpose of this Sources Sought is to gain knowledge of interest, capabilities and qualifications of various members of industry, including the Other-Than-Small and Small Business Communities. The Government must ensure there is adequate competition among the potential pool of responsible contractors.

This procurement is for:

1. Environmental Remediation Services
2. NAICS Code: 562910 - Environmental Remediation Services with Small Business size standard of 750 Employees
3. Set-Aside: To be determined after responses to the sources sought are received and evaluated.

Prior Federal Government contract work is not required for submitting a response under this sources sought synopsis.

The official Synopsis citing the solicitation number may be issued on Federal Business Opportunities www.fbo.gov ("FBO") and inviting firms to register electronically to receive a copy of the solicitation when it is issued. The Government has yet to make a determination as to the acquisition source. It is anticipated that this acquisition will be awarded utilizing a Request for Proposal (RFP) Best-value Trade-off acquisition type.

Firm's response to this Synopsis shall be limited to 10 pages and shall include the following information:

- Firm's name, address, point of contact, phone number, and e-mail address.
- Firm's CAGE and DUNS numbers if applicable.
- Firm's interest in bidding on the solicitation when it is issued.
- Firm's Capability Sheet as it relates to this project
- Provide Example Projects: The firm should provide a brief description of the project, customer name, timeliness of performance, customer satisfaction, and dollar value of the project.
- Provide three (3) but no more than five (5) example projects demonstrating experience of work similar to that described within the description provided above.
- Firm's Business Size category: Other-Than-Small Business, Small Business, HUB Zone, Service Disabled Veteran Owned Small Business, Women Owned Small Business or 8(a).
- Firm's Joint Venture information if applicable.

Firms must be registered in SAM.gov to be eligible for award of Government contracts.
