Minor Trespassing: Incidents that are unlikely to result in explosive hazard exposure. Example: trespass on roads that have undergone subsurface MEC removal, where there is no evidence of trespasser engaging in ground disturbing activities.

Major Trespassing: Incidents that are more likely to result in explosive hazard exposure. Example: incidents where trespassers engaged in ground disturbing activities in areas that have undergone surface MEC removal.

2025 Munitions Incident Summary Table

2025 #	Incident Date	Location	Description	Munition	Type	Quantity	Disposition
1	1/9/2025	Unit 7 (Impact Area MRA)	BLM Weed Crew was performing work in Unit 7 when they discovered a possible munitions item on the ground. They informed the BRAC Field Manager. The BRAC Field Manager was unable to locate the object. After receiving clarification on the location, the BRAC Field Manager located the item on 1/15. The item was identified as a Fuze, projectile, point detonating, M48 series; deemed munitions debris and removed for scrap/recycling.	Fuze, projectile, point detonating, M48 series	MD	1	Removed for scrap/recycling

2	2/23/2025	CSUMB Off- Campus MRA	<p>A recreational user was running on a trail in a CSUMB parcel when they observed a possible munition item on the ground. The CSUMB PD was contacted for response on 2/24. CSUMBPD went to the location on 2/25. CSUMB PD conducted an area check of the described location and found the item, identifying it as a signal, smoke, ground, model unknown. The item was confirmed to be inert, therefore deemed munitions debris. The item was removed for disposal.</p>	Signal, smoke, ground, model unknown.	MD	1	Removed by CSUMBPD
