**Table 8. Definitions of CERFA Categories  
Environmental Baseline Survey  
CSUMB Parcel  
Fort Ord, California**

- CERFA Parcel - Portion of the installation real property for which [the CERFA] investigation revealed no evidence of storage for one year or more, release, or disposal of CERCLA hazardous substances, petroleum, or petroleum derivatives and no evidence of being threatened by migration of such substances. CERFA parcels include areas where PCB-containing equipment is in operation, but there is not evidence of release. CERFA parcels also include any portion of the installation that once contained related environmental, hazard, or safety issues including unexploded ordnance (UXO) located on firing ranges or impact areas, radon, stored (not in use) PCB-containing equipment, products that contained radionuclides being used for their intended purposes, asbestos contained within building materials, and lead-based paint applied on building material surfaces, but that has since been removed or fully remediated.
- CERFA Parcel with Qualifier(s) - A portion of the installation real property for which [the CERFA] investigation reveals no evidence of storage for one year or more, release, or disposal of CERCLA hazardous substance, petroleum, or petroleum derivatives and no evidence of being threatened by migration of such substances. The parcel does however contain related environmental, hazard, or safety issues including UXO located on firing ranges or impact areas, radon, radionuclides contained within products being used for their intended purposes, asbestos contained within building materials, lead-based paint applied to building material surfaces, or stored (not in use) PCB-containing equipment.
- CERFA Disqualified Parcel - Portion of the installation real property for which [the CERFA] investigation reveals evidence of a release, disposal, or storage for more than one year of a CERCLA hazardous substance, petroleum, or petroleum derivative; or a portion of the installation is threatened by such a release or disposal. CERFA disqualified parcels also include any portion of the installation where PCB, asbestos containing material, lead-based paint residue, or any ordnance has been disposed of, and any locations where chemical ordnance has been stored. Additionally, CERFA disqualified parcels include any areas in which CERCLA hazardous substances or petroleum products have been released or disposed and subsequently fully remediated.
- CERFA Excluded Parcel - A portion of the installation real property retained by the Department of Defense, and therefore not explicitly investigated for CERFA. CERFA-excluded parcels also include any portions of the installation that have already been transferred by deed to a party outside the federal government, or by transfer assembly to another federal agency. No CERFA excluded parcels were identified at Fort Ord.

Environmental Baseline Survey  
CSUMB Parcel  
Fort Ord, California**

<b>Site Name</b>	<b>Location</b>	<b>Site Description</b>
<b>NPL Sites</b>		
Site 2: Main Garrison Sewage Treatment Plant	0.5 mile northwest	Soil and groundwater contamination: lead in soil, chlorinated solvents in groundwater
Site 3: Beach Trainfire Area	0.6 mile west	Soil contamination: metals
Site 4: Beach Stormwater Outfalls	0.75 mile west	Potential release of hazardous materials: awaiting risk assessment
Site 10: Burn Pit	0.25 mile southwest	Soil contamination: TPH, BTEX, VOC. Potential groundwater contamination, not confirmed
Site 11: AAFES Fueling Station	0.25 mile southwest	Soil contamination: hydrocarbons and lead
Site 12: DOL Automotive & Cannibalization Yard	0.25 mile west	Soil and groundwater contamination: lead in soil, chlorinated solvents in groundwater
Site 13: Railroad Right-of-way	0.25 mile west	No unacceptable risk associated with chemicals in soil or groundwater
Site 16: DOL Maintenance Yard and Pete's Pond	North/East boundaries	Soil contamination: TPH, BTEX, VOCs, metals, landfill debris (UXO)
Site 19: 2200 Block Facility	0.25 mile north	Soil contamination: chlordane, unknown hydrocarbons
Site 20: South Parade Ground, 3800 & 519th Motor Pools	West boundary	Soil contamination; low chromium, organics in soil gas, potential landfill locations
Site 21: 4400/5500 Motor Pool, East Block	South boundary	Soil contamination: oil and grease, metals
Site 22: 4400/5500 Motor Pool, West Block	South boundary	Soil contamination: high boiling hydrocarbons
Site 24: Old DEH Yard	South/West boundary	Soil contamination: high boiling hydrocarbons
Site 25: Former DRMO Site	North boundary	No unacceptable risk associated with chemicals in soil or groundwater
Site 27: Army Reserve Motor Pool	0.45 mile northeast	No unacceptable risk associated with chemicals in soil or groundwater
Site 28: Barracks and Main Garrison	0.5 mile northeast	No unacceptable risk associated with chemicals in soil or groundwater
Site 29: East Garrison DRMO	1.0 mile east	No unacceptable risk associated with chemicals in soil or groundwater
Site 30: Driver Training Area	0.9 mile east	Soil contamination: TPH, BTEX, VOCs
Site 32: East Garrison Sewage Treatment Plant	0.8 mile east	No unacceptable risk associated with chemicals in soil or groundwater
Site 34: FAAF Fueling Facility	0.8 mile north	Soil contamination: hydrocarbons
Site 35: Aircraft Cannibalization Yard	0.65 mile north	No unacceptable risk associated with chemicals in soil or groundwater
Site 40: FAAF Defueling Area	1.0 mile north	Soil contamination: methane, VOCs, hydrocarbons, unknown hydrocarbons
