

## Site 39 Inland Ranges Habitat Restoration Status Update

May 10, 2024

---

### 13<sup>th</sup> Annual Former Fort Ord Habitat Restoration and Monitoring Meeting

- Meeting took place on April 16, 2024
- Brett Bell of Burleson/Terracon presented on 2023 Habitat Restoration Activities and Summary of Monitoring Results
  - Two HAs were in their benchmark year 8 of monitoring
    - HA 26 was meeting all 6 of its success criteria
    - HA 48 was meeting 4 of 6 success criteria

### 2023 Annual Report Former Fort Ord Site 39 Habitat Restoration

- 2023 annual report will be available soon on the BRAC Fort Ord Clean-up website

### Caretaker of HAs/Restoration Sites

- Harris-Terracon field team continues hand removal of invasive species and make minor erosion control repairs

### Community Involvement Workshop/Open House

- Harris-Terracon participated in the virtual Former Fort Ord Clean-up Open House/Community Involvement Workshop held on February 10, 2024
  - We created an informative PowerPoint video on habitat restoration
    - The video is available to view on the BRAC Fort Ord Clean-up website

### Monitoring of HAs/Restoration Sites

- Spring photo points are currently being taken
- HMP annuals were surveyed at restoration plots at HA 38
- Species richness survey began at Austin Road Stockpile
