

Site 39 Inland Ranges Habitat Restoration Status Update

May 8, 2026

2025 Former Fort Ord Annual Habitat Restoration and Monitoring Annual Meeting

- The 15th Annual Former Fort Ord Habitat Restoration and Monitoring Meeting was held on April 9, 2026.
- In 2025, ten of the nineteen restoration sites were in their final monitoring year (Year 13).
- These ten restoration sites are largely ecologically self-sustaining and are on track to meet most, if not all, success criteria.
- These ten restoration sites are considered complete.

2026 Monitoring

- HMP annuals, vegetation cover, species richness, and photo points.
- In 2026, one restoration site, HA 19, is in its final year of monitoring.

2026 Caretaking

- Continue maintenance of all restoration sites through weed management, erosion control, and corrective actions.
